PROFILE

Technically oriented developer focused on modern frontend and clean code architecture. Leveraging experience from the aerospace industry, I bring extreme attention to detail and pixel-perfect execution to programming. I am adaptable, accustomed to multicultural environments, and fluent in English.

PROJECTS

Personal Portfolio (2026): A digital version of my resume, performance-optimized and built with a modern tech stack (Vite.js, Bootstrap 5, Sass).

Colorado Avalanche Fanpage (2025): A responsive website focused on clean style architecture and modern design (HTML, CSS, JS).

WeifouDilla (2017-2019): Core co-creator of a fashion project, involved in everything from initial concept to full-scale operation, e-shop management, social media administration, and online community building.

Take a deck (2010-2014): Organizer of cultural and sports events under the auspices of the Džizo crew. Focus on community development and extreme sports.

WORK EXPERIENCE

Production Worker / Supervisor (2023–2025): Piekenbrink GmbH, DE - high-precision shaping of composite molds for the aviation industry. Demonstrated ability to work flawlessly according to complex technical blueprints with a strict zero-error mindset.

Team Leader (2022-2023): Hanos Horeca Groothandel, NL - responsible for ensuring 100% data integrity within the company database. Effective coordination and communication within a diverse, english-speaking team.

Courier (2019–2022): MCR Transport B.V., NL - utilized digital logistics systems for efficient route planning and tracking, experienced in real-time problem solving, consistently maintained high standards for on-time delivery schedules.

Housekeeping (2017–2019): VM Glanz GmbH, AT - managed daily operations for apartment maintenance and guest services. Ensured high-quality standards and fulfilled specific guest requirements to enhance satisfaction.

EDUCATION

ITnetwork Academy Slovakia (2025): OOP, Web Applications, MySQL.

University of Economics in Bratislava (2014-2016): International Business.

Leonard Stöckel Grammar School (2009-2013): Focus: Mathematics and Geography.

Michal Vilec School of Art (2001-2009): Painting, drawing, sculpting, photography, and lino printing.
